

DESCRIPTION

It is very important to create awareness of the situation and challenges in the Baltic Sea and to explain to people what they can do personally in order to make it better.

We will be presenting different solutions to raise awareness and ways of educating people, often focusing on children.

During the webinar, you will be able to listen to distinguished "keynote speakers" presenting their opinions and selected "showcase speakers", who will share their experiences and explain what they are doing in practice.

ABOUT BASRAN

BASRAN works towards ensuring a better future for the Baltic Sea. This is a beautiful natural gem of Northern Europe. Join the efforts today by becoming a member!

OUR MISSION

To save the overstressed Baltic Sea from continuing degradation and help restore its natural beauty and environmental significance. There are 90 million people living around the Baltic Basin who depend on this stunning aquatic wonderland for a very good quality of life.
